

# Siva Ganesh Golla

Senior Java Full Stack Developer | Spring Boot | React | Angular | AWS

456-961-7695 • gsg1499@gmail.com • Tampa, FL • linkedin.com/in/ganeshg7 • github.com/sivaganesh1407

## PROFESSIONAL SUMMARY

Senior Java Full Stack Developer with 6+ years building enterprise web platforms on Java, Spring Boot, Spring Security, Hibernate, and JPA, paired with React.js and Angular (TypeScript, JavaScript, HTML5, CSS3). Delivers contract-first service integrations, microservices architectures, and secure OAuth2/JWT/OIDC patterns across distributed systems on AWS with Docker, Kubernetes, Kafka, PostgreSQL, MongoDB, Redis, Jenkins, GitHub Actions, and Agile/Scrum—including on-call production support, performance tuning, and reliability work.

Domain experience spans retail point-of-sale, financial services, energy operations, manufacturing and logistics analytics, and regulated pharmaceutical programs, balancing backend depth, cloud-native delivery, operational monitoring, and maintainable frontends.

Familiar with AI-assisted developer tools including GitHub Copilot and Cursor AI for development acceleration and documentation support.

Available for C2C, contract, and W2 engagements.

## TECHNICAL SKILLS

**Languages:** Java 17, TypeScript, JavaScript, SQL

**Frontend:** React.js, Angular, HTML5, CSS3, Redux, RxJS, SPA routing, responsive UI, form validation, Bootstrap, Material UI

**Backend:** Spring Boot, Spring MVC, Spring Security, Hibernate, JPA, REST APIs, Microservices, Swagger/OpenAPI, Maven, Gradle, OAuth2, JWT, RBAC, RESTful services, distributed systems

**Cloud & DevOps:** AWS (EC2, S3, RDS, Lambda, API Gateway, ECS), Docker, Kubernetes, Terraform, Jenkins, GitHub Actions, Bitbucket, CI/CD, Git, GitHub, DevSecOps, Infrastructure as Code (IaC)

**Databases:** PostgreSQL, MySQL, Oracle, MongoDB, Redis, DB2, SQL optimization, indexing, query tuning, stored procedures, transactions

**Messaging & Integration:** Apache Kafka, RabbitMQ, event-driven architecture, asynchronous processing, batch pipelines, near-real-time processing, REST integrations, API integrations

**Testing & Monitoring:** JUnit, Mockito, TestNG, Selenium, Cypress, Postman, Prometheus, Grafana, logging, monitoring, alerting, debugging, performance tuning

**Developer Tools:** IntelliJ IDEA, VS Code, Eclipse, Jira, Confluence, GitHub Copilot, Cursor AI, Claude AI, OpenAI APIs

**Development Practices:** Agile methodologies, Scrum, code reviews, CI/CD pipelines, production support, release coordination, defect triage, troubleshooting

## PROFESSIONAL EXPERIENCE

### Client: Mad Mobile | Tampa, Florida, USA

Role: Java Full Stack Engineer | Duration: Nov 2025 – Present

- Built and maintained Spring Boot microservices for high-volume checkout and kiosk flows across distributed retail environments.
- Migrated Spring MVC services toward Java 17 and Spring Boot microservices for retail and restaurant POS, reducing deployment effort by ~25% and improving release stability.
- Implemented event-driven integration (Kafka, RabbitMQ, Redis) for 10K+ daily transactions with circuit breakers for resilient order and payment flows.
- Built REST APIs with OAuth2, JWT, and RBAC (Spring Security) for 500+ concurrent users; enhanced Angular and React UIs for peak-hour restaurant throughput.
- Operated Spring Data JPA with Oracle and MongoDB on Docker and Kubernetes (AWS EC2, ECS) for scalable POS services.
- Maintained CI/CD quality gates across Jenkins, Bitbucket, and GitHub Actions; extended observability with Prometheus, Grafana, and JUnit/Mockito.

### Client: Corebridge Financial | Houston, Texas, USA

Role: Java Full Stack Engineer | Duration: Feb 2025 – Oct 2025

- Built Spring Boot microservices with Hibernate/JPA for insurance, retirement, and asset management behind customer and agent portals.
- Released Docker and Kubernetes workloads on AWS (EC2, S3, RDS, Lambda) with OAuth2, JWT, Redis sessions, and RBAC for compliant financial environments.
- Enhanced Angular and React (HTML5, CSS3, JavaScript) on Spring Boot APIs; improved API latency by ~20% and reduced data issues on policy and claims journeys.
- Partnered with architecture and compliance on API specifications and integrations; delivered on-schedule policy, claims, and reporting releases.
- Contributed to Agile delivery with Product and QA and CI/CD (Jenkins, Bitbucket, GitHub Actions), tightening feedback from test to production.
- Hardened services with fault-tolerance patterns, JUnit/Mockito tests, and Prometheus/Grafana observability on critical paths.

**Client: ConocoPhillips | Houston, Texas, USA**

Role: Java Developer | Duration: Feb 2024 – Dec 2024

- Built Java 11, Spring Boot, and Spring Data JPA services for oil and gas portfolio and asset tracking for 500+ users and high daily transaction volume.
- Built React dashboards (HTML5, CSS3, JavaScript) on Spring Boot REST APIs; reduced reporting runtime by ~40% for field and office production decisions.
- Automated Terraform and Jenkins infrastructure-as-code pipelines; reduced environment provisioning effort by ~25% for AWS-bound workloads.
- Operated Kubernetes (health checks, readiness probes, auto-scaling) with Oracle and MySQL on AWS for resilient energy data exchange.
- Enhanced REST contracts and integration documentation for interfaces supporting high-volume field reporting across upstream/downstream systems.
- Extended regression safety with JUnit and Mockito before production deployments on production-critical services.

**Client: Infosys | Hyderabad, Telangana, India**

Role: System Engineer | Duration: Jun 2021 – Jun 2022

- Built Java and Spring Boot REST services on Oracle and PostgreSQL for automotive manufacturing and supply-chain analytics across plants, dealers, and logistics.
- Improved SQL and indexing for ~20% faster queries, reducing dashboard latency for 100+ manufacturing, dealer, and logistics users.
- Built ETL from vehicle production, dealer systems, and logistics into analytics stores for batch and near-real-time reporting.
- Delivered contract-first REST layers with stable JSON for JavaScript KPI dashboards under concurrent load.
- Implemented validation and reconciliation across plant and dealer feeds, improving downstream reporting reliability for 100+ business users.
- Maintained Jenkins CI/CD pipelines and deployments across lower environments with automated testing and release validation.
- Contributed in Agile squads with analysts and QA, shipping JUnit-backed changes before production releases.

**Client: Elder Pharmaceuticals Ltd. | Mumbai, India**

Role: Associate System Engineer | Duration: Jun 2019 – May 2021

- Built Spring Boot and Node.js REST services for production monitoring and ERP integration on Oracle and PostgreSQL in a regulated pharma environment.
- Delivered AngularJS and React dashboards (HTML5, CSS3, JavaScript) on secure APIs; reduced manual laboratory, QC, and inventory entry effort by ~40% and accelerated quality reviews.
- Extended ETL consolidating lab, QC, and inventory data into validated reporting models; delivered SQL compliance reports aligned to GxP-style controls.
- Implemented RBAC-aware validation, audit trails, and reporting pipelines for traceability across distributed manufacturing and quality sites.
- Coordinated Jenkins and Maven CI/CD with mandatory JUnit-gated builds before promotion to controlled environments.
- Supported incremental, audit-friendly releases with operations and quality over 24 months, stabilizing regulated reporting and ERP integration.

## CERTIFICATIONS

---

- AWS Certified DevOps Engineer – Professional
- AWS Certified Solutions Architect – Associate
- HashiCorp Terraform Associate
- Oracle Certified Professional Java SE Developer (In Progress)

## EDUCATION

---

**Master's Degree, Information Technology Management**, Indiana Wesleyan University

2022 – 2024. Grade: 3.45/5. Coursework: Information Systems Management, Database Systems, Cloud Computing.

**Bachelor's, Electrical, Electronics and Communications Engineering**, Karunya Institute of Technology and Sciences

Grade: 7.2/10. Coursework: Communication Systems, Embedded Systems, Computer Engineering.
